

Health and safety policy:

It is our policy to comply fully with the requirements of European Community Law, the Health & Safety at Work Act 1974, and all other relevant statutory provisions.

We have a responsibility to provide a safe environment for your child. All tutors are aware of potential hazards within the immediate premises and the surrounding environment and actively protect children from hazards. We aim to provide all tutors with first aid training. All accidents and any incidents are recorded in the *Accident Report Book*. All accidents are accurately notified to the parent/carer as soon as possible. Hygiene rules relating to bodily fluids are followed with particular care.

We aim to:

- i. Prevent accidents, injuries and ill-health and to identify and eliminate hazardous situations.
- ii. Achieve a high standard of occupational health, safety, welfare and hygiene.
- iii. Control situations likely to be hazardous to health and safety or cause damage to persons or equipment.
- iv. Provide a safe and healthy environment

Thank you

Child Prodigy
